

# MULTI-ENZYME COIL CLEANER

FOR USE ON HEATING AND COOLING AIR CONDITIONING COILS

## CLEANER COILS IMPROVE ENERGY EFFICIENCY & REDUCE RUNNING COSTS

Over time the surfaces of coils become dirty. Air moving over the coils contains dirt, dust, pollen, moisture and other contaminants. A build-up of contaminants reduces the available surface area for heat transfer reducing the efficiency of the heat transfer process, leading to excess energy consumption & poor system performance.<sup>ii</sup>

For best and optimal result - pair with AerisGuard™ Indoor Coil Treatment & Multi-Enzyme Condensate Pan Tablet as below<sup>i</sup>:
